Summary

Highly skilled and motivated Junior Software Engineer with a specialization in Python development, backed by 2 years of professional experience. Proficient in designing, developing, and deploying robust Python applications, I possess a strong foundation in software engineering principles and best practices. Additionally, I am comfortable working with **Java**, **JavaScript**, and **React js**, enabling me to contribute effectively to full-stack development projects. With a passion for problem-solving, a keen eye for detail, and a collaborative mindset, I am dedicated to delivering high-quality code and exceeding client expectations. Seeking opportunities to leverage my expertise and contribute to innovative software solutions.

Skill Highlights

- Python Programming
- MySQL
- Version Control Tools
- Responsive Web Design
- Problem Solving

Education

Bachelor of Science: **Bachelor of Software Engineering** – 2026
Addis Ababa University

Certifications

Programming Languages: **Python, JavaScript, HTML5, JAVA**
